DMSO ~ Makes Balms more Potent!

On its own DMSO is a pain reliever, anti-inflammatory, anti-aging...

DMSO passes through the skin barrier, carrying the healing ingredients of a balm deeper into muscle/joints & cells, for a stronger, more potent effect. Make sure that you are using a natural, toxin-free balm when combining it with DMSO like Simply Wholesome Balms, because of its ability to go deep into your body.

Directions for using the Powerhouse Duo (DMSO/Simply Wholesome Healing Balms), such as Cayenne Balm, Comfrey Balm, Healing Balm Plus or Plantain Balm.

1. Apply a thin layer of DMSO to clean skin above, below & on the target area.
2. Rub a thin layer of balm over the DMSO. It will take a minute or 2 for it to absorb.
3. The Duo can be applied as needed, up to several times a day.

It is recommended to pause DMSO for 2 days after using it for 5 straight days before starting it up again.

*Balms can be used without pausing.
